

UNCONTROLLED BUSH BURNING IS HARMFUL TO OUR ENVIRONMENT AND LIVELIHOODS

UNDESIRED SITUATION

Effects of bush burning

Destroys lives, gardens, livestock and food crops. Destroys soil organisms, soil texture and soil fertility. Destroys vegetation cover leading to soil erosion. Causes air pollution. Destroys; insects and animals habitats. Destroys pastures and water shed points. Contributes to global warming.

COMMUNITY INTERVENTIONS

Community sensitisation on dangers of bush burning

Community by-laws on bush burning

Community collective actions can stop bush fires

LEAVE FIRE LINES BETWEEN BUSH AND HOME THEN BUSH AND GARDENS

DESIRED SITUATION

A well Preserved Ecosystem

Together we can Eliminate Bush Burning so as to Preserve our Environment
