About TRAC FM and Common Matters 2

TRAC FM activates citizens to be part of the running of Uganda by enabling them to share their views and experiences through interactive radio debates and SMS poll questions. Poll-results are represented in graphs and infographics and shared with authorities and development practitioners. Collected data is used to strengthen advocacy campaigns and assist our partners to accurately represent the voice of the people.

Background

Land is the most valuable asset to many Ugandans. However, many Ugandans who own land have not registered it in their names with the relevant government bodies.

The government has put many institutions in place to support people with registering their land. 80% of land in Uganda is still unregistered.
